Examiner's Amendment and Reasons of Allowance

The Status of Claims

Claims 3, 6-7, 18-19, and 21-23 are pending.

Claims 3, 6-7, 18-19, and 21-23 have been allowed.

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with an attorney of record, Mr. Todd Crissey on 6/26/2004.

I. The application has been amended as follows:

In claim 3, line 2 on page 3 (amendment dated on 4/6/05):

The phrase “ -- heart failure --” after the word “ or ” has been replaced with the phrase “ congestive heart failure”.

In claim 3, line 6 on page 4 (amendment dated on 4/6/05):

The term “ -- containing --” after the word “ optionally ” has been replaced with the word “ having”.

In claim 6, line 2 on page 4 (amendment dated on 4/6/05):

The phrase “ -- heart failure --” after the word “ or ” has been replaced with the phrase “ congestive heart failure”.

In claim 6, line 3 on page 5 (amendment dated on 4/6/05):

The term “ -- containing --” after the word “ optionally ” has been replaced with the word “ having”.

In claim 18, line 7 on page 6 (amendment dated on 4/6/05):

The term “ -- containing --” after the word “ optionally ” has been replaced with the word “ having”.

In claim 23, line 1 on page 7 (amendment dated on 4/6/05):

The phrase “ -- heart failure --” after the word “ or ” has been replaced with the phrase “ congestive heart failure”.

II. The following is an examiner's statement of reasons for allowance:

- The objection in the specification has been withdrawn due to the modification made in the amendment.
- The objection of Claim 7 has been withdrawn due to the modification made in the amendment.
- The rejection of Claims 3, 6, and 20 are rejected under 35 U.S.C. 112, first paragraph, has been withdrawn due to the modification made in the amendment.

Art Unit: 1625

- The rejection of Claims 3 and 18-23 under 35 U.S.C. 112, second paragraph, has been withdrawn due to the modification made in the amendment.
- The close reference for the current invention is Klein et al (Scientia Pharmaceutica, 2000, 68 (1), 15-24).

Klein et al discloses an 4-methoxy-N,N'-bis(3-pyridinylmethyl)-1,3-benzenedicarboxamide below (see abstract).

The instant invention, however, differs from the prior art in that the claimed compounds have the following generic formulas:

,wherein R^4 and R^5

are independently $(CH_2)_n$ heterocyclyl and $(CH_2)_n$ heteroaryl and R^1 , R^2 and R^3 independently are hydrogen, halo, hydroxyl, NO_2 , C_1-C_6 alkyl, which are different from the prior art compound which has the nitrogen moiety connected to one hetero ring and a hydrogen group.

Art Unit: 1625

Therefore, the claimed invention would not have been obvious to the person with an ordinary skill in the art because the claimed compounds and the prior art compound are completely different from each other.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning the communication after allowance such as sending all post-allowance correspondence should be directed to "Box Issue Fee" or faxed directly to PUBS at 703-305-8755. This will expedite the process of these papers.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
